

Blessed is the one who trusts in the Lord, whose confidence is in him.  
They will be like a tree planted by the water that sends out its roots by the stream.  
It does not fear when heat comes; its leaves are always green.  
It has no worries in a year of drought and never fails to bear fruit.

Jeremiah 17: 7 - 8

## Mental Health and Emotional Wellbeing Policy

September 2024

Review date: September 2026 or sooner if needed

  - 13.2 Supporting Parents/Carers
- 14.0 Training

## **1.0 Policy statement**

At The Federation of Middleham (VA) & Spennithorne (VC) CE Primary Schools, we are committed to promoting positive mental health and emotional wellbeing to all students, their families and members of staff and governors. Our open culture allows students' voices to be heard, and through the use of effective policies and procedures we ensure a safe and supportive environment for all affected - both directly and indirectly - by mental health issues.

## **2.0 Scope**

This policy is a guide to all staff – including non-teaching and governors – outlining our federation approach to promoting mental health and emotional wellbeing. It should be read in conjunction with other relevant school policies.

## **3.0 Policy Aims**

- Promote positive mental health and emotional wellbeing in all staff and students.
- Increase understanding and awareness of common mental health issues.
- Enable staff to identify and respond to early warning signs of mental ill health in students.
- Enable staff to understand how and when to access support when working with young people with mental health issues.
- Provide the right support to students with mental health issues, and know where to signpost them and their parents/carers for specific support.
- Develop resilience amongst students and raise awareness of resilience building techniques.
- Raise awareness amongst staff and gain recognition from SLT that staff may have mental health issues, and that they are supported in relation to looking after their wellbeing; instilling a culture of staff and student welfare where everyone is aware of signs and symptoms with effective signposting underpinned by behaviour and welfare around school.

## **4.0 Key staff members**

This policy aims to ensure all staff take responsibility to promote the mental health of students, however key members of staff have specific roles to play:

- Pastoral Staff
- Designated Safeguarding Lead
- SENCO
- Mental Health First Aid Champion
- PSHE Coordinator

If a member of staff is concerned about the mental health or wellbeing of student, in the first instance they should speak to the Executive Headteacher. If there is a concern that the student is high risk or in danger of immediate harm, the school's child protection procedures should be followed. If the child presents a high risk medical emergency, relevant procedures should be followed, including involving the emergency services if necessary.

## **5.0 Individual Care Plans**

When a pupil has been identified as having cause for concern, has received a diagnosis of a mental health issue, or is receiving support either through CAMHS or another organisation, it is recommended that an Individual Care Plan should be drawn up. The development of the plan should involve the pupil, parents, and relevant professionals. Suggested elements of this plan include:

- Details of the pupil's situation/condition/diagnosis
- Special requirements or strategies, and necessary precautions
- Medication and any side effects
- Who to contact in an emergency
- The role the school and specific staff

## 6.0 Teaching about mental health

The skills, knowledge and understanding our students need to keep themselves - and others - physically and mentally healthy and safe are included as part of our PSHE curriculum. We will follow the guidance issued by the PSHE Association and resources in Coram Scarf to prepare us to teach about mental health and emotional health safely and sensitively.

### School resources:

<https://www.coramlifeeducation.org.uk/scarf-mental-health-toolkit>

<https://thegoto.org.uk/>

<https://www.youngminds.org.uk/>

### Parent Guide:

<https://nipinthebud.org/>

<https://thegoto.org.uk/>

<https://www.youngminds.org.uk/>

Incorporating this into our curriculum at all stages is a good opportunity to promote students' wellbeing through the development of healthy coping strategies and an understanding of students' own emotions as well as those of other people.

Additionally, we will use such lessons as a vehicle for providing students who do develop difficulties with strategies to keep themselves healthy and safe, as well as supporting students to support any of their friends who are facing challenges.

## **7.0 Signposting**

We will ensure that staff, students and parents/carers are aware of the support and services available to them, and how they can access these services. Within the school (noticeboards, common rooms, toilets etc.) and through our communication channels (newsletters, websites), we will share and display relevant information about local and national support services and events.

The aim of this is to ensure students understand:

- What help is available
- Who it is aimed at
- How to access it
- Why should they access it
- What is likely to happen next

## **8.0 Sources or support at school and in the local community**

### **School Based Support**

The SENCO and Executive Headteacher work with class teachers to provide bespoke support plan for specific groups or individual interventions and support as needs arise. These plans are stored on Microsoft Teams.

### **Local Support**

In North Yorkshire, there are a range of organisations and groups offering support, including the CAMHS partnership, Compass Phoenix who are a group of providers specialising in children and young people's mental health wellbeing. These partners deliver accessible support to children, young people and their families, whilst working with professionals to reduce the range of mental health issues through prevention, intervention, training and participation.

## **9.0 Warning Signs**

Staff may become aware of warning signs which indicate a student is experiencing mental health or emotional wellbeing issues. These warning signs should always be taken seriously and staff observing any of these warning signs should alert Marie Mann.

Possible warning signs, which all staff should be aware of include:

- Physical signs of harm that are repeated or appear non-accidental
- Changes in eating / sleeping habits
- Increased isolation from friends or family, becoming socially withdrawn
- Changes in activity and mood
- Lowering of academic achievement
- Talking or joking about self-harm or suicide
- Abusing drugs or alcohol
- Expressing feelings of failure, uselessness or loss of hope
- Changes in clothing – e.g. long sleeves in warm weather
- Secretive behaviour
- Skipping PE or getting changed secretly
- Lateness to, or absence from school
- Repeated physical pain or nausea with no evident cause
- An increase in lateness or absenteeism

### **10.0 Targeted support**

We recognise some children and young people are at greater risk of experiencing poorer mental health. For example, those who are in care, young carers, those who have had previous access to CAMHS, those living with parents/carers with a mental illness and those living in households experiencing domestic violence.

We work closely with school nurses and their teams in supporting the emotional and mental health needs of school-aged children and are equipped to work at community, family and individual levels. Their skills cover identifying issues early, determining potential risks and providing early intervention to prevent issues escalating.

### **11.0 Managing disclosures**

If a student chooses to disclose concerns about themselves, or a friend, to any member of staff, the response will be calm, supportive and non-judgemental. All disclosures should be recorded confidentially on CPOMS, including:

- Date
- Nature of the disclosure & main points from the conversation
- Name of member of staff to whom the disclosure was made
- Agreed next steps

### **12.0 Confidentiality**

If a member of staff feels it is necessary to pass on concerns about a student to either someone within or outside of the school, then this will be first discussed with the student. We will tell them:

- Who we are going to tell
- What we are going to tell them
- Why we need to tell them
- When we're going to tell them

Ideally, consent should be gained from the student first, however, there may be instances when information must be shared, such as students up to the age of 16 who are in danger of harm.

It is important to also safeguard staff emotional wellbeing. By sharing disclosures with a colleague this ensures one single member of staff isn't solely responsible for the student. This also ensures continuity of care should staff absence occur and provides opportunities for ideas and support.

Parents must always be informed, but students may choose to tell their parents themselves. If this is the case, a timescale of 24 hours is recommended to share this information before the school makes contact with the parents/carers.

If a pupil gives us reason to believe that they are at risk, or there are child protection issues, parents should not be informed, but the child protection procedures should be followed.

### **13.0 Whole school approach**

### 13.01 Working with parents/carers

If it is deemed appropriate to inform parents there are questions to consider first:

- Can we meet with the parents/carers face-to-face?
- Where should the meeting take place – some parents are uncomfortable in school premises so consider a neutral venue if appropriate.
- Who should be present – students, staff, parents etc.?
- What are the aims of the meeting and expected outcomes?

We are mindful that for a parent, hearing about their child's issues can be upsetting and distressing. They may therefore respond in various ways which we should be prepared for and allow time for the parent to reflect and come to terms with the situation.

Signposting parents to other sources of information and support can be helpful in these instances. At the end of the meeting, lines of communication should be kept open should the parents have further questions or concerns. Booking a follow-up meeting or phone call might be beneficial at this stage.

Ensure a record of the meeting and points discussed/agree are added to the pupil's record and an Individual Care Plan created if appropriate.

### 13.02 Supporting parents

We recognise the family plays a key role in influencing children and young people's emotional health and wellbeing; we will work in partnership with parents and carers to promote emotional health and wellbeing by:

- Ensuring all parents are aware of and have access to promoting social and emotional wellbeing and preventing mental health problems;
- Highlighting sources of information and support about common mental health issues through our communication channels (website, newsletters etc.);
- Offering support to help parents or carers develop their parenting skills. This may involve providing information or offering small, group-based programmes run by community nurses (such as school nurses and health visitors) or other appropriately trained health or education practitioners;
- Ensuring parents, carers and other family members living in disadvantaged circumstances are given the support they need to participate fully in activities to promote social and emotional wellbeing. This will include support to participate in any parenting sessions, by offering a range of times for the sessions or providing help with transport and childcare. We recognise this might involve liaison with family support agencies.

## **14.0 Training**

As a minimum, all staff will receive regular training about recognising and responding to mental health issues as part of their regular child protection training to enable them to keep students safe.

Training opportunities for staff who require more in depth knowledge will be considered as part of our performance management process and additional CPD will be supported throughout the year where it becomes appropriate due developing situations with one or more students.

Suggestions for individual, group or whole school CPD should be discussed with **Marie Mann** who can also highlight sources of relevant training and support for individuals as needed.
